

Native Warm Season Grass Grazing & Pollinator Workshop for Conservation Professionals

TUESDAY
July 16, 2019
9:30 A.M. to 3 P.M.

Location

Fallsville Wildlife Area
10221 Careytown Rd, New
Vienna, OH 45159

This training is open to staff from all agencies. The morning portion of the meeting will focus on establishing and managing quality pollinator habitat. The afternoon will focus on using Native-Warm Season Grasses in a Grazing System. This training will include a site visit to a farm that is actively using warm season grasses. Come and learn more about establishing and managing Native Warm Season Grasses in a grazing system and Pollinator Habitat.

Topics Include:

- Site preparation establishment and management for pollinator habitat
- Using native warm season grasses in a grazing system
- Native warm season grass establishment
- Managing Warm Season Grass Forages- maintaining vigor and productivity

BRING YOUR LUNCH! DRESS FOR THE WEATHER!

RSVP by July 12th to [TJ Oliver Thomas.Oliver@oh.usda.gov](mailto:TJ.Oliver@oh.usda.gov)
